EXAMINER'S AMENDMENT

An examiner's amendment to the record appears below. Should the changes and/or additions be unacceptable to applicant, an amendment may be filed as provided by 37 CFR 1.312. To ensure consideration of such an amendment, it MUST be submitted no later than the payment of the issue fee.

Authorization for this examiner's amendment was given in a telephone interview with Albert C. Smith (Reg. No. 20,355) on 2/17/2005.

The application has been amended as follows:

Claim 1 is rewritten as follows:

A catheter system for ablating biological tissue at a target tissue site, comprising: an elongated body member having a proximal end and a flexible tubular distal portion and having at least one straight lumen passing therethrough; a handle portion operably attached to the proximal end of the elongated body member; an ablation device disposed in the flexible tubular distal portion of the body member and including at least one ablation element adapted to emit ablative energy therefrom; and a pull wire slidably disposed within said at least one straight lumen and slidably attached to the inner wall of said at least one straight lumen near the proximal end at a first angular position with respect to the longitudinal axis of the elongated body member and fixedly attached to the inner wall of said at least one straight lumen near the distal end of the flexible tubular
